

APOLLO

ENGINEERING PROGRAMME

The University of Auckland Engineering Faculty is committed to supporting and supplementing the outstanding work being accomplished at your school and ensuring a seamless academic transition into next year. The Apollo program, a unique opportunity tailored for Māori and Pacific high school students, regardless of their current proficiency level in calculus.

About Apollo Program:

The Apollo Program is designed for Year 12 Māori and Pacific students, irrespective of their current proficiency in calculus. Whether students are seeking to strengthen their foundational understanding or aiming to master advanced calculus topics, our experienced tutors offer personalized guidance tailored to individual needs. Apollo provides a unique opportunity for students to receive expert tutoring in a university setting, paving clear pathways into Engineering and the University of Auckland.

Program Details:

- **Dates:** December 11 - 22 and January 4 - 16
- **Days:** Monday, Tuesday, Thursday & Friday
- **Time:** 9:00am – 3:00pm

Why Apollo?

- **Personalized Support:** Experienced teacher & tutors provide tailored guidance.
- **Admission Assistance:** Step by step help with application for admission.
- **University Exposure:** Introduction to University life and Faculty of Engineering offerings.
- **Smooth Transition:** Helps students transition seamlessly from high school to university.

Previous Apollo Program:

We are pleased to announce that the 2022/2023 Apollo group has successfully completed the program. Their journey culminated in a five-day exam preparation wananga during the recent holidays. We eagerly anticipate welcoming this group as part of the 2024 student intake into the Faculty of Engineering and the University of Auckland.

Registration for 2023/2024 Apollo Program:

We are now accepting registrations for the upcoming Apollo Program. To register, simply visit the link below and fill out the registration form - [Link to: Apollo 2023/2024 Registration Form](#)
Spaces are limited, and we encourage students to secure their spots as soon as possible. Once students have registered, they will be added to our emailing list and receive all communications regarding Apollo.
